## How do I look after my big bottle?

Made from high grade Eastman USA plastic and the latest manufacturing techniques, your Big Bottle is designed to **Live Big** with you every single day. However please note, **due to its unique tapered-design and large water holding capacity** that it is not invincible.

Treat your bottle with care and follow the below instructions so that you can continue to enjoy all its benefits.

### First Time Use : Hand-Wash Only

Please ensure that you follow these steps.

1. Check that the white inner rubber seal is flush within the inside of the cap.

2. Fill your bottle with 1 litre of cool water.
3. Place cap evenly on mouth piece and twist cap – DO NOT over tighten. It should fit snugly and securely.
4. Again, holding your Big Bottle by the handle (over the sink) please tip your Big Bottle upside down to ensure that your cap and seal are watertight.
5. Turn your bottle upright again and lightly shake your bottle before disposing of the cool water.
6. Wash your Big Bottle with some warm/hot soapy water, including the inside of the cap.
7. Rinse thoroughly with warm water.
8. Your Big Bottle is now ready to use. Enjoy!

Whilst it can be tempting and fun we **DO NOT** recommend picking-up and/or holding the bottle by the strap - this may reduce the longevity of your bottle and even possibly cause severe damage to your Big Bottle.

## Hand-Wash & Big Brush

For keeping your Water Bottle in tip top condition on an ongoing basis use warm/hot water with your preferred dishwashing liquid, a good old shake holding from the handle, a quick scrub around the mouth piece and the insides of your Big Bottle with our specially designed **Big Brush**. Finish with a thorough rinse.

Allow your bottle to return to room temperature before placing any cold liquid in it.

Make it **Do Not** scrub your caps with anything but a damp cloth, especially if its a Rose Gold and/or Black Matte Finish.

\* In order to prolong the life of your Big Bottle and ensuring the integrity of all finishes - We **Do Not** recommend placing your Big Bottle and/or the caps in the dishwasher.

## Keeping your water icy cool:

Most health practitioners recommend drinking your water at room temperature for maximum health benefits. However, if you like your water a little cooler please note the following:

Place it in the fridge in a secure and flat position. It will cool very quickly and maintain that cooler temperature for most of the day.

The large mouth-piece is also perfect for our Big Bottle ice cubes made with our specially designed ice trays designed with your Big Bottle in mind and tested to ensure it meets the most stringent world-wide health and safety standards.

## TeamBBC

The Big Bottle Co is Australia born and bred but we've set up warehouses in Sussex, United Kingdom and Ontario, Canada to make life easier for all of our fans across the globe.

TeamBBC are here to help in any way we can. Our email is [teambbc@thebigbottleco.com](mailto:teambbc@thebigbottleco.com) and if you ever require assistance or have some questions please feel free to contact us at any time.

It is staffed from Monday to Friday 9am to 5pm AEST, but we will always look to respond to your email as quickly as possible.

**PLEASE NOTE: The Big Bottle is designed to make achieving your daily hydration needs fun and easy; it is not designed to withstand large drops, force, impact or being exposed to extreme conditions.**
